OBJECTIVE

Motivated student with strong problem-solving skills and proficiency in JavaScript and Python, seeking an entry-level opportunity to apply academic learning to real-world software development

EDUCATION

Bearys Institute of Emerging Sciences-
Mangalore, Karnataka.

Bachelor of Computer Applications
2023 – Present

CGPA: 8.8

PROJECTS

Blogsite: A Full-Stack Blogging Platform

- **Secure Backend:** Developed a RESTful API using Node.js, Express, and MySQL. It features robust, token-based authentication with JWT (access/refresh tokens) and bcrypt for password hashing, enabling full CRUD functionality for posts.
- **Dynamic Frontend:** Created a fast, responsive user interface with React and Vite, using Zustand for efficient state management

n2sql – Natural Language to SQL Interface

- Engineered a full-stack application to translate natural language user input into executable SQL queries, enabling intuitive and visual interaction with a MySQL database.
- Technologies used: React, Node.js, Express.js, MySQL, Tailwind CSS, Vite.

Personal Portfolio Website

- Built a responsive personal website using HTML, CSS, and JavaScript

EXPERIENCE

Graphic Designer – Freelancing

- Worked as a freelancing graphic designer for companies like oceanwind, AB industries and so on...

CAMPUS INVOLVEMENT / CLUBS

Innovator Club – Member

2024 – Present

- Participated in coding workshops and hackathons and Managerial Events.

ADDITIONAL INFORMATION

- Languages: English, Hindi, Kannada (Fluent)
- Interests: Open Source, Web3t, Blockchain, Low-Level coding.
